## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Information Disclosure Statement***

2. The information disclosure statement (IDS) submitted on November 20, 2003 is being considered by the examiner.

### ***Allowable Subject Matter***

3. Claims 1-10 are allowed.
4. The following is an examiner's statement of reasons for allowance: The prior does not teach or fairly disclose a nonvolatile storage device as claimed comprising: a plurality of external terminals; a controller; and a nonvolatile memory, the controller controlling storage operation of data inputted from the external terminals to a region designated by the nonvolatile memory depending on control information inputted from any of the plurality of external terminals, wherein the nonvolatile storage device includes: a plurality of external data terminals to which a data signal is inputted; pull-up circuit for pulling up the external data terminals up to a power source voltage; level detection circuit for detecting a potential of the external data terminals; and a data transfer circuit for selectively fetching the data signal inputted to the plurality of external data terminals and then transferring the data signal to an internal circuit as data of a predetermined bus width, and wherein the level detection circuit detects a potential of a predetermined terminal of the plurality of external data terminals when the control information is
